COROMANDEL

Q2 2023

ABOUT THIS REPORT

Measure the complete brand behind your reputation with the Tourism Sentiment Index®.

Your organization exists to encourage people to visit. It is a vital force and a vital voice, but it is not alone. Operators, residents, visitors, media and associations are among the many who contribute to your complete brand and, ultimately, its success. Together, these are the voices that build your reputation.

Your organization has a special impact on the complete brand as it directly supports the tourism industry, plus it influences those who intersect and interact with tourism. Knowing the state of your destination's reputation – the results of your activities combined with all the others – is a new necessity for destination marketers.

Tracking reputation is how you measure your destination's success.

Tourism Sentiment Score® is how you measure your reputation.

USING THE QUARTERLY RANKINGS

This report is issued every quarter of the calendar year to:

Deliver the best headlines about your destination.

Track key changes in your destination's reputation, based on its Tourism Sentiment Score®.

Rank destinations around the world in overall performance and for each of the tourism assets monitored by Tourism Sentiment Index.

With this report, your organization can regularly:

Update the reputation KPI.

Share good news and positive developments about your destination with stakeholders and the wider community.

Track performance changes over time, including how specific industry sectors are contributing to success.

Understand how your destination compares to others in your area and around the world.

BY TOURISM ASSET

Applying the same methodology as we used to rank the top destinations for overall performance, we provide these global rankings for each of the tourism assets monitored by Tourism Sentiment Index. These destinations had the highest asset scores for this quarter.

**Note:* to qualify for the top destinations list, a destination must satisfy two criteria. #1) destinations must maintain the highest sentiment scores set by all destinations that quarter. #2) destinations must generate enough conversation volume within the category to be in the top 50% of destinations globally. If both criteria are met, then a destination qualifies for the top destination list. In this quarter, sentiment driven by your destination was amongst the top 10% in the world, however it fell below the volume threshold required to qualify for the global ranking.
